Fertilizer with non-mycorrhizal microorganisms	<div>TRICOBEST</div> <div>1 kg/ha · 3 applications with an interval of 10-15 days</div> <div></div>		
Root system biostimulant	<div>VIGORTEM S</div> <div>2-3 kg/ha · Repeat after 7-10 days</div> <div></div>	<div>VIGORTEM S</div> <div>4-6 kg/ha · Repeat after 7-10 days</div> <div></div>	
Flowering biostimulant	<div>MOLIBOR EXTRA</div> <div>2-3 kg/ha · Repeat in each flowering process</div> <div></div>		
Metabolic biostimulant, improves flowering and fruit setting	<div>LIDEX PREMIUM</div> <div>Foliar: 200-250 g/100 L · Fertig.: 2.5 kg/ha</div> <div>Repeat after 7-14 days</div> <div></div>	<div>LIDEX PREMIUM</div> <div>Foliar: 200-250 g/100 L · Fertigation: 2.5 kg/ha</div> <div>Repeat after 7-14 days</div> <div></div>	
Biostimulant: fruit development inducer	<div>BULITEM PLUS</div> <div>Foliar: 30-50 ml/100 L · Fertigation: 1-2 L/ha</div> <div></div>		

**Note:** The above fertilization program it's a general recommendation based on the experience and studies of Quimicas Meristem. It should serve as a guide, having to be adapted to each individual case depending on both local conditions and crop characteristics.

## FERTILIZATION PROGRAM: ZUCCHINI PRODUCT USE RECOMMENDATIONS

### TRICOBEST

TRICOBEST is a high quality and high soluble concentrate of humic acids, enriched with *Trichoderma harzanium* (strain IABTH01). It has a notable biostimulant effect, enhancing root development and crop vigor. The strain helps solubilize phosphorus and chelate other nutrients, increasing plant availability. Humic acids improve physical and chemical soil properties.

### VIGORTEM S

VIGORTEM S combines a high phosphorus content, humic and fulvic acids, seaweed extract and amino acids. VIGORTEM S promotes root growth and vigor ensuring crop establishment, and due to humic and fulvic acids, improves physical and chemical soil properties.

### MOLIBOR EXTRA

MOLIBOR EXTRA stimulates the early onset of pollen and improves its quality, resulting in more viable flowers. MOLIBOR EXTRA reduces flower abscission, enhancing the setting process.

### LIDEX PREMIUM

LIDEX PREMIUM is a metabolic processes biostimulant that promotes crop development and improves flowering and fruit setting, optimizing crop productivity.

### BULITEM PLUS

BULITEM PLUS is a combination of free amino acids, *Ascophyllum nodosum* seaweed extract, macro and microelements. BULITEM PLUS enhances fruit development, producing more homogeneous fruit, and also improves quality and post-harvest durability.
